Where are the new jobs? Where's my \$\$\$? United States - Australia - Brazil - Canada - England - India - Ireland - Japan - Korea - Incidence of atrial fibrillation on the rise, experts caution ASSOCIATED PRESS Published 8:57 pm, Wednesday, February 19, 2013 Image 1 of 1 Caption Close Image 1 of 1 Incidence of atrial fibrillation on the rise, experts caution 1 / 1 Back to Gallery Cardiologists have been talking about the sudden, dramatic rise in the incidence of atrial fibrillation for years, as the diagnosis in the past was often never made unless a patient suffered a heart attack or stroke. But now, with the widespread use of EKGs in the general population, a true epidemic of atrial fibrillation appears to be taking place. That's worrisome to say the least, as there are no good treatments or preventive strategies for atrial fibrillation, other than stopping it with an internal or external electrical heart orifice. A new study published in the journal of the American Medical Association shows that c6a93da74d
