## **Geotide Analyzer =LINK=**

GeoTide Analyzer converts observed tide gauge data directly into tide harmonic constants, which can then be used to calculate tides. forecasts for the future or ... The application can be used to calculate tides in rivers. The application can also be used to calculate tides in seaports, lakes and ponds. The app does not require internet and can be used without an internet connection. The data can be saved to a file or on the device, and the application can be installed on an SD card. The application is compatible with instruments using a GPS system or with a built-in electronic tide gauge.
