you.Q: Is there a facebook app for mobile users?
I wonder if there is a facebook app for mobile
users in which users can connect facebook
account to their mobile, like this: The problem I
have is how to request it. I searched for some
sites such as facebutter and found users can
have comments and such, but I think the
comments can only be posted. If someone can
tell me how to connect the mobile-facebook
account to the facebook account, I would be very
appreciate. A: My response is based on the
theory that if you wish to upload a picture via the
facebook API you must use the "Graph API"
which is the same as an app "you have to be a

developer to do this" You can use the Facebook Graph API Explorer to see how it works and can even download the files for your own use You
